Completes Systematic Review of "Seaberry Fruit-Derived Ursolic Acid"! Begins Distribution of Notification Documents for "Foods with Function Claims"! – Aids in Alleviating Frequent Urination in Middle-Aged and Elderly Individuals –

We are pleased to announce the **completion of a systematic review (SR) on the urinary function benefits of seaberry fruit-derived ursolic acid**. We are now distributing updated notification documents for **"Foods with Function Claims"**, compliant with the new PRISMA 2020 standard, which became mandatory on April 1, 2025. Seaberry Extract, which standardizes the functionally active ingredient and was launched in 2013 to improve urinary function, has been highly anticipated by many of our customers for its eligibility as a Food with Function Claim. **We are now beginning to distribute these notification documents to customers who have signed a confidentiality agreement.**

■ About the Notification Details

【Ingredient】 Seaberry Extract-P (Powder)

【Functional Ingredient】 Seaberry fruit-derived ursolic acid, **0.18 mg/day**

【Number of Adopted References】 3 reports, 2 studies

【Health Claim】 This product contains seaberry fruit-derived ursolic acid, which has been reported to alleviate the bother of frequent urination in daily life for middle-aged and elderly individuals who feel they need to urinate often.

■ Status of "Foods with Function Claims" Notification Document Support

We supports 14 materials with "Foods with Function Claims," covering 22 health claims. We have already successfully filed notifications compliant with the PRISMA 2020 standard for Chrysanthemum Flower Extract (Luteolin: uric acid levels), Oryza Ceramide™ (Rice-derived Glucosylceramide: skin barrier function), Oryza GABA™ (GABA : maintenance of skin elasticity), and LycoLift™ (Tomato Seed Extract) (Lycoperoside H: maintenance of skin elasticity). We are progressively preparing PRISMA 2020 compliant SRs and new formats for other materials, in line with the April 2025 requirements. Please contact our sales team for updates on the progress of these notifications.
